

Ensembles build your skills and confidence

Participate in something new, different, challenging, and infinitely rewarding whilst meeting others like yourself and creating friendships that can last a lifetime. Also when you begin playing in an ensemble, your performance skills are boosted and your playing will improve rapidly as you are surrounded by other musicians, in turn building your confidence as a musician.

More time to spend with your Music tutor

Ensembles further concrete techniques that are learnt in individual lessons and are a chance to spend more invaluable time with the tutor. Also the relationship that you build with your Music Director is unique. You learn to work as a team and learn from each other.

Ensembles are a good way of getting into music.

It encourages younger children to make music together and experience the joy that music can bring.

Encourages Good Practice

Performing in an ensemble actually helps you stay organized and looks great on college/job applications due to the discipline and time commitments needed to be a part of a group.

Broadens your repertoire and Nourishes Communication Skills

Learning how to read music and play that music allows you to learn how to communicate in a new way. It's like learning another language and it's a skill for life.

Music can boost academic performance

Beginning music at a young age stimulates the brain in a unique way. Studies have shown that learning to play an instrument enhances a student's academic performance in math, language arts, foreign language and other academic areas. Even test scores such as the SAT are found to be higher among musicians.

Promotes good ensembles technique

You learn how to work together as an ensemble and learn how to work as part of a team. It brings musical minds together and encourages social interactions

It is a good way of boosting mental health.

When used appropriately, music can shift mood, manage stress-induced agitation, stimulate positive interactions, facilitate cognitive function and coordinate motor movements. Ensembles also keep you engaged and mentally active because you have to read music at a fast pace and constantly think about how you can make your performance better.
